

SECTION 31 00 00

REPAIR AND REPLACEMENT OF SIDE SEWER

PART 1 – GENERAL

1.01 WORK INCLUDED

- A. Work under this Section includes removing, repairing, relocating and replacing side sewer as required by the City Representative.
- B. This work also includes excavating, loading, hauling disposing, backfilling and restoring pavement, together with other necessary, related and incidental work. Side sewer connection will be considered as incidental work.

1.02 RELATED SECTIONS

- A. The latest version of SFDPW Standard Specifications
- B. Section 31 23 36 – Excavation and Backfill
- C. Section 32 10 00 – Pavement Restoration

PART 2 – PRODUCTS

2.01 MATERIALS

- A. Materials shall be in accordance with the most current requirements of the City and County of San Francisco DPW Standards Plans and Specifications, unless otherwise specified or as directed by the City Representative.

PART 3 – EXECUTION

3.01 REPAIR AND REPLACEMENT OF SIDE SEWER

- A. All side sewer excavation shall be in accordance with the provisions of Section 31 23 36 - Excavation and Backfill. The side sewer trench shall be of sufficient width to properly repair and install side sewer pipe.
- B. All side sewer trench pavement restoration shall be performed in accordance with the provisions of Section 32 10 00 – Pavement Restoration.
- C. The Contractor shall install side sewer connection per Section 316.06 of the DPW, Bureau of Engineering, 2000 Standard Specifications and 2007 Standard Plans, Drawings 44,337 and 44,851.
